

2
The Delamarter family moved to section 17, Hebron Township,
from Cheboygan, May 11, 1903, ^{and lived in a log house} my folks having bought the 160 acre
place from John Mann, who bought it in 1902 from the original
owner, Charles Romine.

I will list the residences that were in District number 5 at
that time.

The Rushia family lived in a frame house in the north east
quarter of section 21. The Hebron cemetery was a part of this place.
The Slack family later lived in this house.

Thomas Tong and his wife lived in a log house near the center
of section 21. W

William Harger and his son Clyde, lived in a log house near
Mud Lake.

Mrs. Shear and her daughter Mary, and her daughter Gladys,
lived in a log house in the north west corner of section 21.
Mary later married Jacob Fox, or at least they lived together.

The St. Amour family lived in a log house near Mud Lake,
in either section 21 or 28.

There was a log house in section 20, which was vacant in 1903
and later occupied by the George Lucier family. I beleive Georges
father owned this land and likely built the log house.

William Douglass lived in a small log house in section 20.

Prosper Clement lived in the north east corner of section 20, ^{in a log house}

Henry Snyder and family lived in ^{in a log house} the north west corner of
section 20, and the new frame school was built on this property
during the fall of 1903. Henry Snyder leased one half acre of
land to district No. 5, for 99 years, to be used for the school.

Alexander Page and family bought this land in 1905?

The Bannister family occupied a frame house on the north east
corner of section 19.
