Dear Girls & All,

We received both your letters
were glad to hear that Ada was gaining every well
does not get to feeling better I sure know what
it is to be weak but Dad has got all the Break
fast for nearly two weeks and a good share
of the other meals I am feeling quite a bit stronger
yesterday & two day But we are so thankful that
meat is taking care of and we feel we were
fortunate that it kept cold till we got it done
Dad did all the carrying thing down & up cellar
in fact did most ^{was} ~~the~~ ^{heavy} ~~the~~ cans and put meat
in cans we were at it 3 day can. 439.1 lb
and yesterday put the rest down for corn
Beef I will cook the Bones for soup tomorrow.
Dad has not felt any to good. Margie has been
sick since wed. with La Grippe she had such
a fever. Max Frank called. Dr. Hollis Singer he said
she must not go to school and it was not possible
for us to get her home and thought she was better
then then to come out in cold. I called her
yesterday and she thought she would be able
to go back to school I have worried but hope
she will be all right it seems it never rains

see it poor but I hope every one on the gain
I am glad Mary Lou is gaining so nicely
Eugene & Louisa I thank you both for
offering to help take care of meat but you both
have your hands full. I hope both families
keep well. The Ground Hog did not see his
shadow. Oh I must forgot to tell you we
have our Electric lights turned the last day
of January we are sure mending them I tell
you it seems good to not have to carry lamp
& lantern and hope they continue to work.

Louisa did you get your meat taken care of?
we want to kill our Hogs as soon as I am
able to care for it. Think I have been spaying
nearly long enough. Those Grackles on
the Acel. Dutton farm have a ^{half} Baby girl.
you remember Mable counk the Gallop girl
well. her Boy is dead I think he was the oldest.
I do not think of any more to write so will
close. I thought if I wrote one letter would
do for Both with lots of love
Mother

More soon. Well Dad went to the other place
the first time in two weeks. I got up and
got breakfast. Does Dorothea talk of coming
down. I hope when she does I can make
it nice for her. and also the other children
Mother
