

March 9 1932

Dear Eugenia:

I presume you have been looking for a letter from us. Well a week ago Monday we went to see Dr. for Margie he said she would leave to Dr. he thought again well

I have been having a touch of flu so from Wed did not do much only lie on Bed and Sat Margie got word they wanted her at the Hill Mon morn. on a temporary job as a Lady was leaving for an operation so she is there I received a letter today from her she wrote the first night she said she liked the work quite well I presume you will get a letter from her. Uncle Lavin was here a few minutes today He said he had written you and told you all about Wiley's note

so I guess there going to get that all
 OK tell Donna I was pleased to
 get her letter tell her I was so glad
 I could make the cake for her and
 hope that it was real good some way
 I did not think it looked as good as
 your cake did tell her I will try and
 write her some day when I am willing
 you I am so glad you are gaining
 but be carefull do not do to much. I
 hope Charles is feeling late
 better and none of us get it I
 received a letter from Louisa today
 she said they were coming quite
 good now she was very busy she
 helps in Butcher shop Rob. & M.
 but does not go out delivring anymore
 Mr Philips passed away last Sat
 eve the funeral was yesterday.

Then now
just a line this morn to say I rested well
last night and feel quite good this morn I
sure miss Marynie but I hope she gets along
fine lovely mother

Ask Gordon who used to give him?
Bob see if he still reimburs me?
This weather will shut them in
house again I tell you it takes
some wood to keep warm. how about
coal did you get coal in any
different place. you tell Gordon
I heard ma thought about his Birthday
but then it slipped my mind so I
did not send a card to him I expect
he ate some cake too if you let him
I do not expect Lorraine will get
time to go much of anywhere they are
so busy Mrs Hudson & Daughter have
been helping her some by the hour.
She was going to do her. I thought I am
glad she can get some one to help
I expect Dorothy is still growing
does she take a nap in Day time now?
I guess I will close and soon go to bed
with love to all and hope you gain
some each day mother
