

March 27-32
Gregory Much

Dear Eugenia + All

Received your letter
am glad to know you are gaining but
do not think of letting Dona go until
you are real strong because you must not
get down again. Well I expect you
and Louisa had a very nice visit
I was so glad she could go it
will do you both good.

Well this in Easter
Margie had to go back. This eve she
left here at 5:30 P.M. I received a
post card from her she expects to be
back Mon Eve I do not know for
how long No I do not know just
when she may go on permanent.

I attended Sunday School and
Easter services at Church this morn
Margie hated to miss the Easter services
but of course you have to go where
they want you Miss Bailey told her
last week she expected she would
soon work her permanently that is
all we know. We had 905 to Sunday
school and there were quite a few.

extra for Easter services they were
real good I suppose probably Dorothy
went with Mrs. Clark I am so
glad she can go.

Well Uncle Lyman & Aunt Nina
were out for Easter services and invited
me to go home to dinner and they
brought me home this eve I
thought it would be a long day
but that helped out some.

Well now I must tell you about
farm Story Hall ask Uncle Lyman
to come over and help divide
groceries so he went over so they
have that straitened out and they
had 3 calves so Uncle Lyman thought
15 dollars would be about right for
that then there were two pigs which
Uncle Lyman thought would bring 5
dollar a piece they sold them to some
one so that would be \$25^{over} then share
I do not know about cream how
much you will get for that.

Well then Uncle Lyman said
they said they fixed Horse Barn

down and fixed some fence which Stacy said would be \$20 and he asked Uncle Lynam if he should take it out and send Balance to you but Uncle Lynam told him to send you what they owed you and you could settle with them.

Now Uncle Lynam says if they send you check for \$25 and what more cream. and they ask for \$20 you write them and tell them you would like settlement for what butter they churned for themselves also. Eggs and chickens also a share of seed corn.

for Uncle Lynam says they said if they find up some that would not charge for it and if they want to be small you get what is coming to us also he said they wanted their sheep on our hay that was in stacks also had use of stoves last winter and if they take out what he told them not to do you should have what is coming to you

Uncle Lyman is disgusted with them
 he said if they had charged a reasonable
 price he would not thought so much
 about it and had told you when they
 did the work but to wait until the
 last before saying any thing about it
 also he said they received \$2.00 from
 Mr Young Love for Apple & Pear
 He said it was understood we were
 to have $\frac{1}{3}$ of every thing and they have
 not done as they agreed.

Marjorie told them that you wished
 them to put cubboards back in place
 when they were and they said they would
 but if you write about other things
 perhaps you better mention it so to
 be sure we get it done.

Another thing Now Mills I have fined
 that pump which was \$2.50 so if you
 draw a check for him and send to me
 when you write we can hand it to him
 for I expect they need it.

yes if I stay here it would be
 nice to have phone but just now I
 am so undecided what I will do

I thought as first when Marjorie
went I could not stay alone but I
ask God to help me and that night
I went to bed feeling safe and I have
been all night of course it is lonesome
but I read a lot

Boatman is not very well so I would
not like to ask him

it is most mail time so much
closer for it must you to get this,
with lots of love
mother
