

Lansing, Mich.,
Mar. 3, 1932.

Dear Eugenia ^{and} All,

I rec'd your letter and was so glad to know that you can feel that you are gaining now, even tho slowly. We are all quite well again, still have some colds but nothing to keep us off the job. Hope Charles is better and do hope the rest of you didn't get it.

We went to Plaine's Sunday and brought Glad home. He isn't just himself yet but keeps going most of the time. We are getting little lambs and pigs. One sow had 19 pigs but the second night she laid on 9 of them. What do you think of that? About as bad as coxideosis, eh? Another one this

morning has 11 and we have 4 nice lambs, the first 2, a pair of twins died.

It will keep them pretty busy for a couple of weeks, now, I expect until lambing and farrowing are over.

Bill is busy as ever if not a bit more so. Last week was biggest week we've had yet and they're going strong so far this week. It is getting busier at the store every day. He is going to have to enlarge his ice box very soon.

We had a very nice time at Klavis and he was quite surprised. There were 22 of us altogether, Kenneth, Vinnie & Max also Bernice Isham were extras.

My! Bernice seems such a nice girl. She was taken ill the day after Xmas so had to give up her job. Now she is fine again and would like to find something to do.

Dave's have a nice house, much larger than at Damon's but built very like

it - kitchen, dining room, & living room on one side downstairs, and 2 large bedrooms & pantry on the other side - Upstairs there are four large bedrooms, a small room intended for bath and lots of closet space. They miss the convenience like everything but seem to be getting along nicely. Neither Jen or Taft look very well. They had the "Flu" quite hard.

Well, I am without a girl again. It seems quite strange after having someone so long. Audrey got the chance of a better job so I told her to go ahead. Last week Edith & Mrs. Hudson helped me, Edith on Fri. & Mrs. H. on Sat. This week I am doing the same way. I don't know if I'll be able to manage that way for long.

or not but I'm saving a little now
anyway. I only work at the shop
Sat. forenoon but I render the land
here and am also making cottage
cheese to sell so I'm pretty busy.

Well, I'll close and get busy I guess.
Have a little ironing to do yet
to-day, also am supposed to go ^{to} a
Ladies' Aid Committee meeting
this afternoon.

Give the kiddies each a kiss
for Auntie. Love to all from all here.
Your sister,
Louisa.
